

NutriSky 
Swietenia Macrophylla Juice Premix

Vitality When You Need It

NutriSky® is a juice premix containing *Swietenia Macrophylla*, a fruit with a high concentration of flavonoids and saponins. These two exceptional groups of nutrients blend together with a synergistic effect to enhance stamina and vitality by improving blood circulation, while also invigorating and fortifying the body.

The Origins of *Swietenia Macrophylla*

For more than 1,000 years, *Swietenia Macrophylla*, a rare tropical fruit rich in flavonoids and saponins, has been consumed by natives for its healing and vitality properties. This knowledge has been passed down through generations, and a group of renowned American biochemists have isolated the health-giving characteristics of *Swietenia Macrophylla*. This subsequently led to the thorough research of its benefits as a unique functional food. By the 1990s, a five-year research effort eventually succeeded in processing the fruit into a concentrated health food extract.

Swietenia Macrophylla is the fruit of an evergreen tree belonging to the Melia family, and grows in tropical countries such as the Solomon Islands, where the climate is ideal and free from environmental pollution. Hence, *Swietenia Macrophylla* that is grown in such climate is of a higher quality and contains higher active ingredients than those grown in other locations. *Swietenia Macrophylla* also offers a valuable blend of natural proteins, vitamins, carbohydrates, enzymes, dietary fibres, fats, minerals, and various essential nutrients that can be readily assimilated by the human body to give remarkable benefits.¹

Key Benefits of Saponins²

- Improves your vitality.
- Enhances your immune system.
- Strengthens the function of your heart.

Key Benefits of Flavonoids³

- Improves blood circulation and stamina.
- Provides protection against oxidative and free-radical damage.
- Lowers fat build-up in the blood stream.

Promotes Blood Circulation and Boosts Your Vitality

Swietenia Macrophylla is the most important ingredient in NutriSky®, which has beneficial effects due to saponins and flavonoids acting in synergy to promote your vitality and stamina.

Saponins have demonstrated *in vitro* antielastase and antihyaluronidase activities, useful for the protection and treatment of vein insufficiency. Saponins inhibit the hyaluronidase activity in a non-competitive, dose-dependent way. The stimulating action of saponins on blood circulation is reinforced by the flavonoids. The main activity attributed to flavonoids is that they act as vein active agents, namely that they reduce the permeability and increase the resistance of blood capillaries. This results in a boost to your vitality.

A Product of High Quality

NutriSky® has been produced with the utmost care and attention to the smallest details, from the initial selection of raw materials to the research and development of the product. State-of-the-art equipment ensures hygiene and quality control at every point in the manufacturing process. NutriSky® is a world-class vitality product that is recognised by international standards.

PATHMAN SENATHIRAJAH MANAGING DIRECTOR THE V

"My professional calling as an international trainer and speaker entails hours of running events and being on stage, compounded with transatlantic travels. I have been doing this for nearly a decade and there have been countless times when my body has succumbed to exhaustion and the usual physical wear and tear. And then I discovered NutriSky®. Packed with natural energy-boosting ingredients, NutriSky® has greatly improved my stamina and endurance. Today, not only do I feel twice as energetic when I go onstage, I still have a few to spare for golf. NutriSky® is an unbelievable product by which I and a lot of people swear. If you want vitality on the go, all you need is a pack of NutriSky®."

Ingredients

Maltodextrin, Fructus *Swietenia Macrophylla*, Psyllium Husk, Vege Powder, Permitted Flavouring, Frutafit, Soluble Fibre, Lemon Juice Powder and Stevia (12 g per serve)

Preparation

½-1 sachet when needed. Mix with 200 ml of water. Stir and serve.
